10th Dec 2020

REACH Statement of Compliance.

Subject: Substances of Very High Concern (SVHC's)

Sumika (UK) are aware of the European Union REACH (Registration, Evaluation and Authorisation (and restriction) of Chemicals Regulations)) 2007; including the expansion of the REACH SVHC's list of 209 substances as of June 25th, 2020

Suppliers must provide recipients with information on SVHC if those are present above a concentration limit of 0.1%. Due diligence is conducted throughout the supply chain and as far as can be reasonably ascertained, from the evidence and declarations made, Sumika (UK) are compliant with the requirements of these regulations and directives.

Sumika UK do not hold any REACH registrations, however we have confirmed with our raw material suppliers that the components in our products have REACH registrations that are held by an EU based entity and therefore will continue to be compliant for continued import into the EU/EEA, after Brexit.

The complete list can be found at the following link:
